Europe Simple Europe Strong The Future Of European Governance:

Europe Simple, Europe Strong Frank Vibert, 2001-12-21 A fundamental debate on the Future of Europe is now underway across Europe with an official Convention headed by former French President Valerie Giscard d Estaing considering wide ranging reforms to the existing Union In an original and challenging contribution to this debate *Europe Simple Europe Strong* urges a radical rethink of the framework for the continent wide political union now possible and desirable in Europe It argues that the key to a successful system of government is the way in which it connects two systems of choice market choice and political choice and that Europe s present approach is likely to lead to a situation where neither system works well The book examines the ways in which the two systems of choice have been impacted by globalisation and the information revolution and assesses how in this new setting European governance can be reformed to get the best out of both systems of choice It concludes in favour of a new and simpler democratic structure In looking at how systems of market choice and political choice relate to each other in today s setting the book brings together contemporary thinking on the regulatory functions of government the role of rights based politics in relation to vote based politics and the relevance of models of business organisation to the organisation of government It places special emphasis on how constitutions can be designed to promote tolerance in pluralist societies *Europe Simple Europe Strong* makes an original and challenging contribution to the European debate It will be vital reading for a variety of academics and policy makers and for all those interested in the future of political union in Europe

Rethinking Europe Gerard Delanty, Chris Rumford, 2005-09-15 The book examines major social transformations in Europe from the perspective of social theory It offers an intriguing alternative to studies of the EU which emphasise the replacement of the nation state by a supra national authority *The Oxford Handbook of Political Theory* John S Dryzek, Bonnie Honig, Anne Phillips, 2008-06-12 Oxford Handbooks of Political Science are the essential guide to the state of political science today With engaging contributions from 51 major international scholars the Oxford Handbook of Political Theory provides the key point of reference for anyone working in political theory and beyond *Accountability and Legitimacy in the European Union* Anthony Arnall, Daniel Wincott, 2002 The European Union s growing accountability deficit threatens to undermine its legitimacy accordingly member states have agreed to negotiate a new set of Treaty changes in 2004 These essays consider various aspects of accountability and legitimacy in the European Union

The European Union in the Wake of Eastern Enlargement Amy Verdun, Osvaldo Croci, 2005-05-20 What will happen to the EU in the wake of enlargement What are the institutional and policy making changes in light of enlargement This text deals with the theoretical conceptual and historical processes that led to European Union enlargement **Slippery Slope** Giles Merritt, 2016-06-01 Shortlisted for 2016 European Book Prize Giles Merritt describes himself as a sceptical europhile For many years among the foremost commentators on the politics and economics shaping Europe he was named by the Financial Times as one of 30 Eurostars who are the most influential voices in Brussels *Slippery Slope* is far from the usual run of

uncritical EU related studies Its aim is to set alarm bells ringing across Europe with its revealing insights into our increasingly troubled future Giles Merritt argues that the steepness and suddenness of Europe s decline in the Asian century will depend on the actions we Europeans undertake And there are two key lessons that we need to face from the beginning Firstly the good times aren t coming back without a massive effort on our part And secondly in a fast developing world of 9 10 billion people no single European country can survive and prosper on its own Merritt sets out to sort fact from fiction in his analysis of Europe s weaknesses and the policies needed to address them Placing the outlook for Europe in its global context he assesses Europe s decline in relative as well as absolute terms and puts forward an ambitious but realistic to do list for Europe s policymakers if our comparatively privileged life styles are not to be seriously threatened in the coming years In the wake of Brexit this is a hard hitting warning that unless Europeans shake themselves awake their future will be increasingly gloomy Anyone who believes that the economic crisis that began in 2008 is just a blip will find this book a salutary lesson in the reality of Europe s position

Choice ,2003 **Greece in the European Union** ,2002 *European Union--the Second Founding* Ludger Kühnhardt,2008 The author is presenting a broadly structured study about the first fifty years of European integration its geopolitical context and academic reflection His study is based on the two fold thesis that since a few years the European Union is going through a process of its Second Founding while simultaneously changing its rationale

The European Union Robert Goehlert,Marian Shaaban,2004 **EUSA Review** ,2004 *Europe Today and Tomorrow* ,1952 *Public Administration Review* Leonard Dupee White,2002 Includes section Reviews of books and documents
