Field Guide to Negotiation Gavin Kennedy,1994 This fourth publication in the Harvard Business The Economist Reference Series offers over 400 crucial definitions and practical tips for readers wishing to master the art of negotiation Written by a leading British authority and the author of many books on negotiation this handy reference will help readers understand and manage any negotiating situation Includes glossary *The Expert Negotiator:Strategy, Tactics, Motivation, Behaviour and Leadership* Raymond Saner,2000-08-23 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills Some of these skills are inborn others need to be learnt In this book the psychologist and economist Dr Raymond Saner draws on his long years of experience as a negotiation trainer and university lecturer to show that two thirds of negotiation practice is learnable Yet very few people are specifically trained in this everyday task Without sacrificing scientific accuracy Dr Saner offers a highly readable and fascinating guide to the subject In so doing he does not limit himself to the over simplified tips generally put out on successful bargaining in every imaginable situation Rather he treats the different aspects of negotiation practice in a way that is useful to the both academics and practitioners such that the general laws and principles gradually become evident as and of themselves The aim of this approach is to reveal the essence of negotiation through the experience of both the author and the reader Such an understanding of the processes involved in negotiation is of far greater practical value than a mere collection of recipes with no discussion of the underlying theory while the most comprehensive treatment of the theory without reference to its application in practice would be only half the story Thus the text is supplemented by a series of illustrative examples and case studies from the business and political arenas plus some seventy figures and tables With all this the author has paid considerable attention to writing a text that is both entertaining to read and rigorous in content This work was originally published in German

author of *A House Divided Six Belief Systems Struggling for America's Soul* If you've ever wondered how best to approach a conflict *Collaborative Approaches to Resolving Conflict* will help you choose the right method for your problem Using the same tool for different kinds of conflict often leaves us feeling stuck and frustrated Authors Myra Warren Isenhardt and Michael L Spangle explain the major approaches to managing disputes at home in the workplace or school within communities or in the international arena The reader will find that each approach is illustrated with recent examples of what can go wrong and how to respond most appropriately This book includes the following approaches Negotiation Mediation Facilitation Arbitration Judicial Processes Profiles of experienced and respected practitioners accompany each approach These well known men and women describe how they entered their chosen field what their work is like and what topics are controversial in their areas Managing Intercultural Negotiations Pierre Casse, Surinder Deol, 1985 Negotiations Strategies Richard G.
