order to present their respective solutions Walker reveals a self critical strain in psychiatry that attacked the profession's authoritarianism Over the time period in question she sees an increasing willingness on the part of Hollywood cinema to deal with volatile issues including childhood sexual trauma and the social origins of female mental illness These issues were coming up Walker says in the emergent feminist critique of conformist psychiatry Walker brilliantly explores how psychoanalytic psychiatry and Hollywood cinema negotiated women's psychosexuality and life experience during the mid twentieth century Ultimately her reading of films including *The Snake Pit* *The Three Faces of Eve* *Lilith* and *Freud* in conjunction with such cultural representations as marriage manuals pharmaceutical ads and letters from psychiatrists to motion picture personnel responds to the challenge to understand film in its wider cultural context
